

Super Shine and Applications

A high performance organic cleaner for metal surfaces, ovens & range hoods

- > **Cleans & polishes**
- > **Protects surfaces – non-corrosive**
- > **Environmentally responsible**

Manufactured using Green Power

Product Application Sheet – TRIPLE 7 SUPER SHINE

Triple 7 Super Shine is a non-toxic and non-corrosive solution that is used to clean metal surfaces, ovens and range hoods. The product is water soluble and will not harm acrylics, rubber, vinyl, glass, fabrics or paint.

Application & Dilution Rates

Ovens – Spray apply product at full strength to a slightly warm oven. Let stand for 5 minutes and rinse clean with water. For heavily soiled ovens, let stand overnight before rinsing.

Oven Racks – Soak for 20 minutes in a 1:10 solution in water above 20°C. Rinse clean with water.

Range Hoods – Spray with a 1:10 solution in warm water above 20°C. Let stand for 5 minutes and rinse with water. Repeat if necessary.

Contents

Triple 7 Super Shine is non-hazardous and readily biodegradable. The product is made from plant based non-ionic surfactants and does not contain toxic additives such as; caustics, phosphates, petroleum products, terpenes, glycol ethers, ammonium compounds, phosphoric, hydrochloric and oxalic acids.
